12 Post and Telecommunications

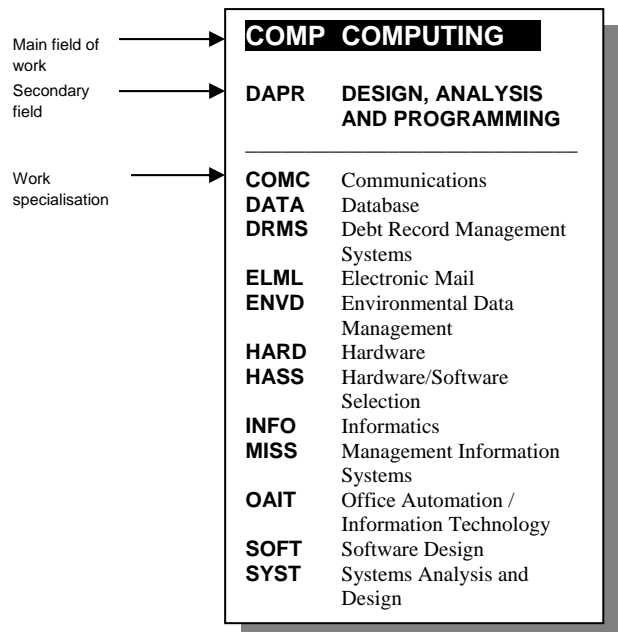

13 Science and Technology

13 Social Science and Welfare

13 Trade and Commerce

Job Skill Codes

Each code is made up of three sets of letters: the first set indicates your **main field of work**, the next set a **secondary field** of work, and the third set a **work specialisation**. You must select all three parts to make up each code. You can select up to six Job Skill Codes to cover a range of fields and specialisations, but put your codes **in the order of priority**.

Keywords and key phrases

As the Job Skill Codes may not cover specific areas of your work experience, this section allows you to indicate skills and experience in greater detail. You must select a series of Keywords or key phrases for this section. For example, you may use them to highlight:

- words or phrases describing your work experience;
- particular countries in which you have had considerable working experience;
- particular industries or sectors in which you have specialist experience or where you have applied your professional skills (for example, health, education);
- specialist computer operating systems, languages or packages you work with (for example, UNIX, C++);
- specialist qualifications (for example, Chartered).

Examples

These are fictional examples which may assist you in completing the Job Skill Codes and Keywords (Section 3) in the Personal History Form.

Example 1

A computer software engineer with experience of IT design and consultancy and who has worked in a number of industrial sectors including assignments in the Caribbean.

Job Skill Codes

Job Skill Codes	Main field of Work	Secondary field	Work specialisation
1	C O M P	• D A P R	• S O F T
2	C O M P	• D A P R	• S Y S T
3	C O M P	• D A P R	• M I S S
4	C O M P	• D A P R	• C O M C
5	C O M P	• D A P R	• O A I T
