The governments and people of our richly diverse family of 54 Commonwealth nations connect at many levels through extensive and deep-rooted networks of friendship and goodwill. Together we tackle climate change and its impacts, and work to find sustainable ways of using the natural resources of our planet, its land and the ocean which connects us, so that the environment is protected. We work to build peace and harmony through social and political development, and encourage inclusive economic empowerment and fair trade so that all people, particularly women, youth and marginalised communities, are able to share the fruits of progress and prosperity.
The Commonwealth is made up of 54 countries around the world

The Commonwealth is a family of independent countries spread over every continent and ocean. Its 2.4 billion people account for more than 30 per cent of the world’s population. They are of many faiths, races and cultures.
