Commonwealth Blue Charter Webinar: Unlocking the Wealth of Mangrove Ecosystems

Monday 27 July, 1400 – 1500 BST (GMT+1)

Between 30–50% of mangroves have been lost over the past 50 years. New approaches to restoration of mangroves are emerging, benefiting from new, low-cost technologies and support the resilience of local communities through empowered engagement and innovative funding.

This webinar will –

• Provide an overview of the science and policy adopted by different nations to gather information required for better management of mangroves;

• Showcase learning through case studies from projects across the Commonwealth representing different regions;

• Highlight the various platforms available to move forward in a post COVID-19 world.

Shared Ocean, Shared Values
