

The Commonwealth

Tender Name: Provision of Technical Assistance to support Tonga's Investment Facilitation, Investment Promotion and create sector profiles

Tender Reference No: 536-2020

Clarification Questions/Answers

Q 1:	What role do you expect the consultant to have in “the development of a one stop website”? We assume it is not to do the development ourselves, but rather just to provide some high level advice on what is required from a design / content perspective.
A 1:	The development of the website is slated for Phase 2 of the project and is not included in the deliverables under the current procurement
Q 2:	The 2009 National Investment Policy statement is 39 pages and references a number of government Acts. While a review of the statement and advice on what would help to ensure it aligns with the latest good practice is certainly possible, its likely MTED itself would need to complete some of the specific detail, as they will need to ‘own’ this document going forward. Can you clarify exactly what is expected here from the consultant?
A 2:	The Consultant will be required to review the NIP and propose a new draft that aligns with current good practices and the aspirations of the government to reflect any change in its investment policy direction. The MTED will be able to provide any support required in the process and will through stakeholder consultations feed into the final document.
Q 3:	By “a database of investment opportunities”, do you mean a list of target companies?
A 3:	NO. A database of possible investment opportunities in TONGA that can be share with investors.
Q 4:	As per the tender timetable the Deadline for submission of Tenders to the ComSec (“Tender Submission Deadline”) is at Noon, 23 .12.2020. Are these two different deadlines and which one is the bidder expected to adhere to?
A 4:	Please adhere to Noon, 23.12.2020
